The City Traffic Control Division will be replacing the traffic signal controller cabinet at the Main Street intersection with Porter Avenue on Wednesday, February 22, 2012, weather permitting. After 9:00 A.M., the intersection will be controlled by a 4-way STOP sign. Signal operation should be restored before 12:00 P.M. This intersection was the location of a collision resulting in demolition of the existing controller cabinet last year. A replacement cabinet was secured from the insurance company representing the driver responsible for the collision. During this interim period, a replacement cabinet was borrowed from our inventory but it was not a black, decorative cabinet as had existed at the intersection. The work this week will restore the decorative cabinet.
